

### **920B prerequisites (Active Component):**

- Must be a SGT (P) or above.
- Be an ALC graduate in MOS 92A or 68J.
- Must have at least five years of experience performing MOS 92A or 68J duties.
- Must score at the 12th grade level on the Language portion of the Test for Adult Basic Education (TABE); the current TABE version 11/12 A is the only acceptable version. Soldiers are exempt from this requirement if they have completed 6 credit hours of College English/CLEP.
- Must have completed the Global Combat Support System Army Training and Certification (Basic Navigation, Equipment Records Parts Specialist & SSA); provide Certificate.
- Provide copies of all NCOERs; the majority of the Soldier's NCOERS must be noted with "Successful" performance and "Superior potential by the Senior Rater or "Exceeded Standard" performance by the Rater and "Highly Qualified" potential by the Senior Rater, depending on which version of the NCOER is in the Soldier's packet.
- Submit USAREC FORM 3.3 (Letter of Recommendation) from a Supply Systems Technician (CW2-CW5), assigned to the Soldier's organization, that attests to their technical and tactical competence in MOS 92A or 68J. If no Supply Systems Technician is assigned, provide a letter of recommendation from another Quartermaster Warrant Officer (e.g. 920A, 921A, 922A, or 923A) assigned to the Soldier's organization/installation.

### **920B prerequisites (Reserve Component):**

- Must be a SGT or above.
- Be an ALC graduate in MOS 92A or 68J (waiverable on a case-by-case basis).
- Have at least five years of documented experience in MOS 92A or 68J. Military Technician, Government Contract, and other civilian job experiences that correlate with the feeder MOS will be considered for all Army National Guard and US Army Reserve Soldiers.
- Must score at the 12th grade level on the Language portion of the Test for Adult Basic Education (TABE); the current TABE version 11/12 A is the only acceptable version. Soldiers are exempt from this requirement if they have completed 6 credit hours of College English/CLEP.
- Must have completed the Global Combat Support System Army Training and Certification (Basic Navigation, Equipment Records Parts Specialist & SSA); provide Certificate.
- Provide copies of all NCOERs; the majority of the Soldier's NCOERS must be noted with "Successful" performance and "Superior potential by the Senior Rater or "Exceeded Standard" performance by the Rater and "Highly Qualified" potential by the Senior Rater, depending on which version of the NCOER is in the Soldier's packet. Military Technician, Government Contract, and other Civilian appraisals will be taken into consideration to determine the Soldier's level of competence in the feeder MOS.
- Submit USAREC FORM 3.3 (Letter of Recommendation) from a Supply Systems Technician (CW2-CW5), assigned to the Soldier's organization, that attests to their technical and tactical competence in MOS 92A or 68J. If no Supply Systems Technician is assigned, provide a letter of recommendation from another Quartermaster Warrant Officer (e.g. 920A, 921A, 922A, or 923A) assigned to the Soldier's organization/installation.
